

# ENGOO's LINEAR VOQUE

arlico

**Vogue™** is a striking collection of professional linear LED lighting, perfect for office, leisure and retail applications.

# Sophisticated Elegance

**Vogue™** is produced from linear extruded aluminium profile, with a wide range of sizes, lengths and high performance optics, available for both ambient and accent lighting.

# Suspended Recessed Trimless Surface Track Wall

The **Vogue™** collection is available in a range of body sizes and types. A wide choice of accessories can be specified to allow products to be surface mounted to walls and ceilings, suspended using either rods or clutch operated lockable wires, or for plaster-in applications to create a trimless effect.

# Precise Modularity

# 57<sub>mm</sub>

With LED board modularity of just 57mm, our linear products can be made to virtually any length, giving designers ultimate flexibility to achieve the perfect fit in any space.

# 1625

## Custom RAL Finishes

Profiles can be supplied either silver anodised, or painted in a powder coat in any RAL colour of your choice, perhaps to suit a specific brand identity. **Vogue™** can also be finished in non-RAL metallic finishes, such as our new Bronze Californium, making this collection completely unique.

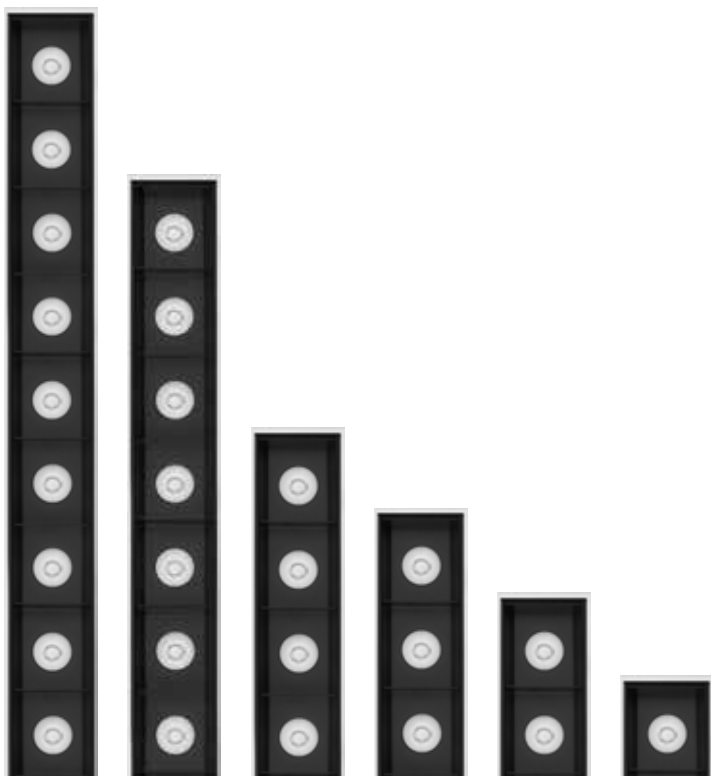

Vogue 5.10 in custom yellow

# L80 B10

With an impressive life expectancy of 50,000hrs  $L_{80} B_{10}$  you can rest assured that **Vogue™** luminaires will achieve consistent performance and life.

Vogue 5.7 LA

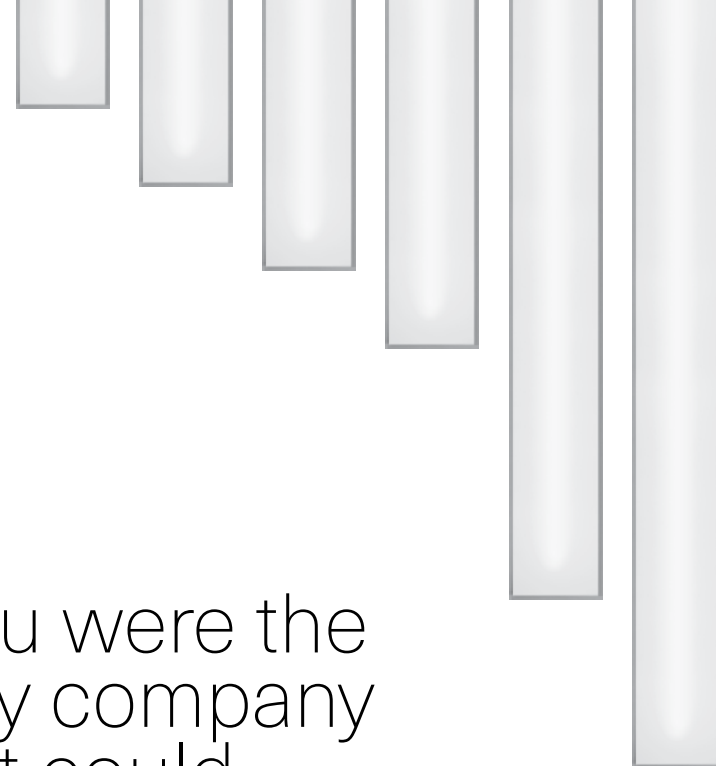

“You were the only company that could offer shaped ends to suit the architect’s design.”

Aecom

**Vogue™** is offered with a wide selection of both diffused optics for ambient lighting, or with individual lensed LEDs for high contrast lighting and wall washing.

Vogue 5.7

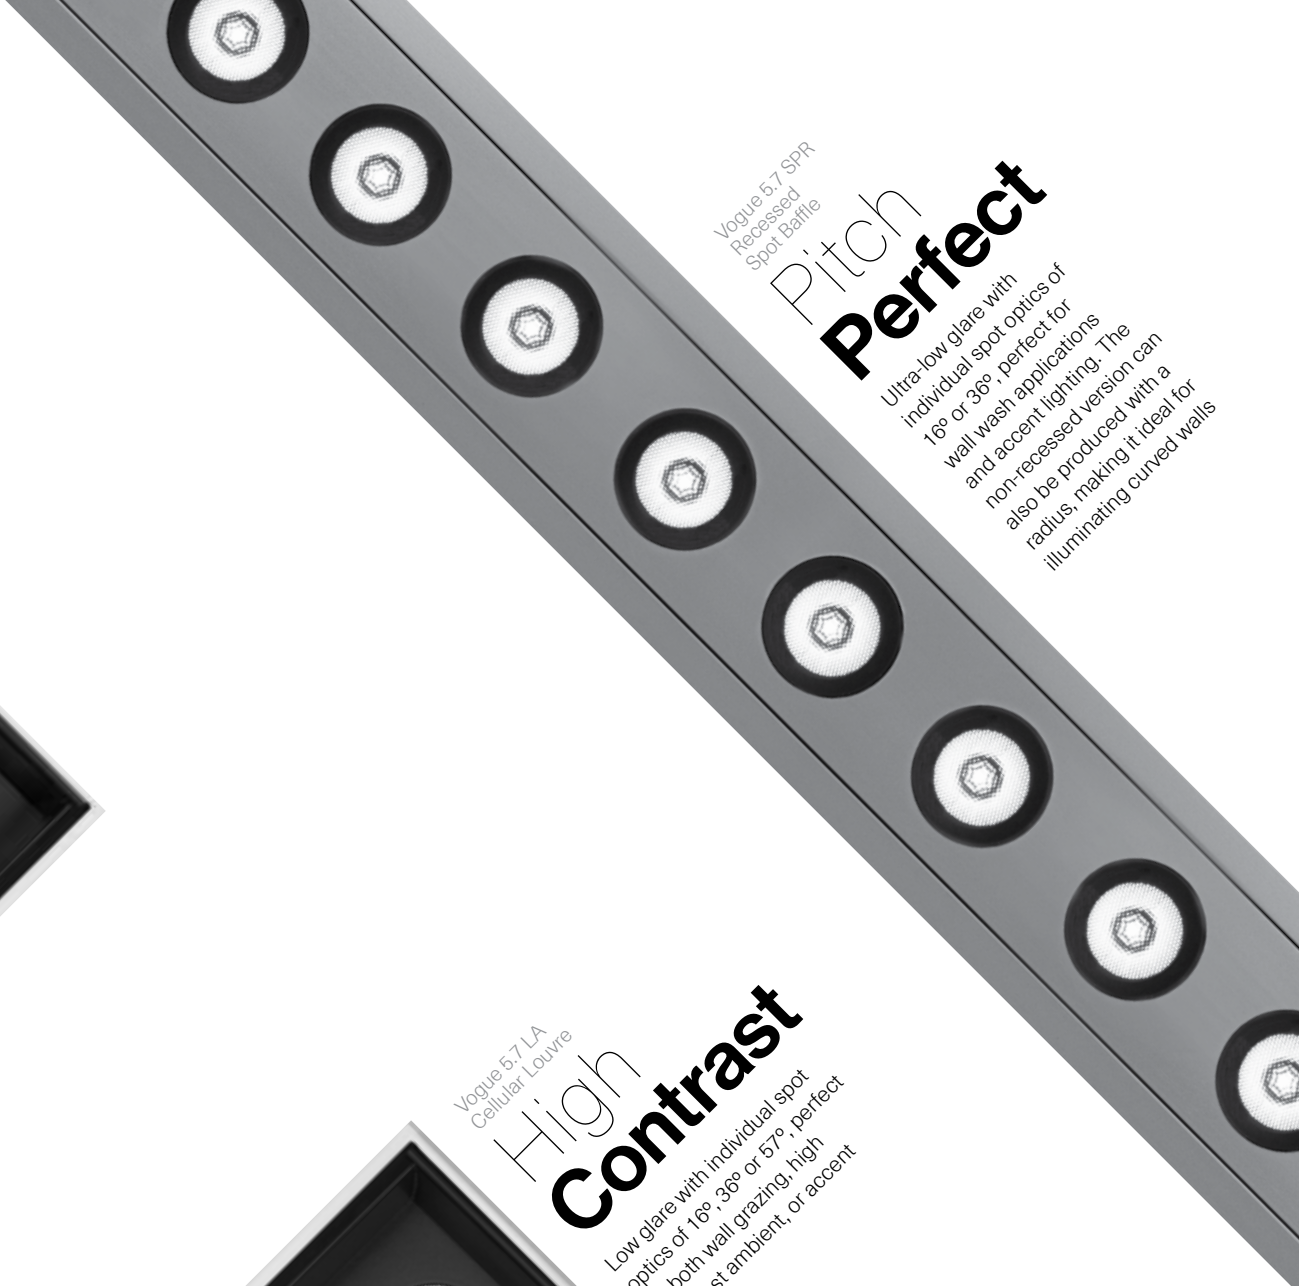

Vogue 5.7  
Ladder Louvre & Linear  
Collimator

## Ultra Low Glare

A striking aesthetic of a black ladder louvre coupled with a 60° linear collimator, for general low glare ambient lighting

Vogue 5.7 SPR  
Recessed  
Spot Baffle

## Pitch Perfect

Ultra-low glare with individual spot optics of 16° or 36°, perfect for wall wash applications and accent lighting. The non-recessed version can also be produced with a radius, making it ideal for illuminating curved walls

Vogue 5.7 LA  
Cellular Louvre

## High Contrast

Low glare with individual spot optics of 16°, 36° or 57°, perfect for both wall grazing, high contrast ambient, or accent lighting

Vogue 5.7  
Microprismatic Controller

## LOW Glare

With a surface brightness  
of  $<1500\text{cd/m}^2$ , this is  
perfect for low glare office  
applications

Vogue 5.7  
Clear & Satin Microprism

## Visual Comfort

Clear cover with a satin  
microprismatic optic; a  
perfect combination for  
visual comfort and diffused  
appearance

Vogue 5.7  
Opal Diffuser

## Simply Opal

High efficiency opal,  
giving the perfect  
balance of light  
transmission and  
diffusion

# System

**Vogue™** profiles can also be made into bespoke lighting systems. The huge versatility of the collection, coupled with the made-to-measure service Arlico can offer, means the possibilities are only limited by the designer's imagination.

Please call us for more information on a system to suit your project.

Scale 1:1

HEIGHT 70

Vogue 5.7 LA

Upto 4.5m  
lengths

**Vogue™** profiles and linear optics are extruded in 4.5m lengths which, using our made-to-measure service, can be tailored to your exact requirements.

Vogue 5.7

# 5.7 LA

Probably the most versatile, high performance product of its type on the market. Vogue 5.7LA is available in both high efficiency and high output versions, with an impressive performance of up to 1976 lumens per linear metre. Both standard and high CRI LEDs are offered in a range of colour temperatures.

For true flexibility, designers can choose between 16°, 36° and 57° optics and both the louvres and profile can be specified in a range of colours including, black, gold and white.

Vogue 5.7 LA

# Lamella

Featuring an LED pitch of 50mm, with each lens individually separated by a darklight louvre blade. The louvre is finished matt black, with white or gold versions to special order. Ideal for high contrast lighting and wall grazing.

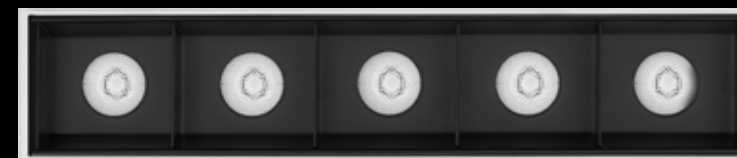

Vogue 5.7 SP

# Spot

Vogue 5.7 Spot is supplied as standard with a circular black anodised darklight snoot around each optic. This facilitates the specification of different LED pitches between 50mm and 100mm, depending on the application. This version can also be produced with a radius, making it ideal for illuminating curved walls.

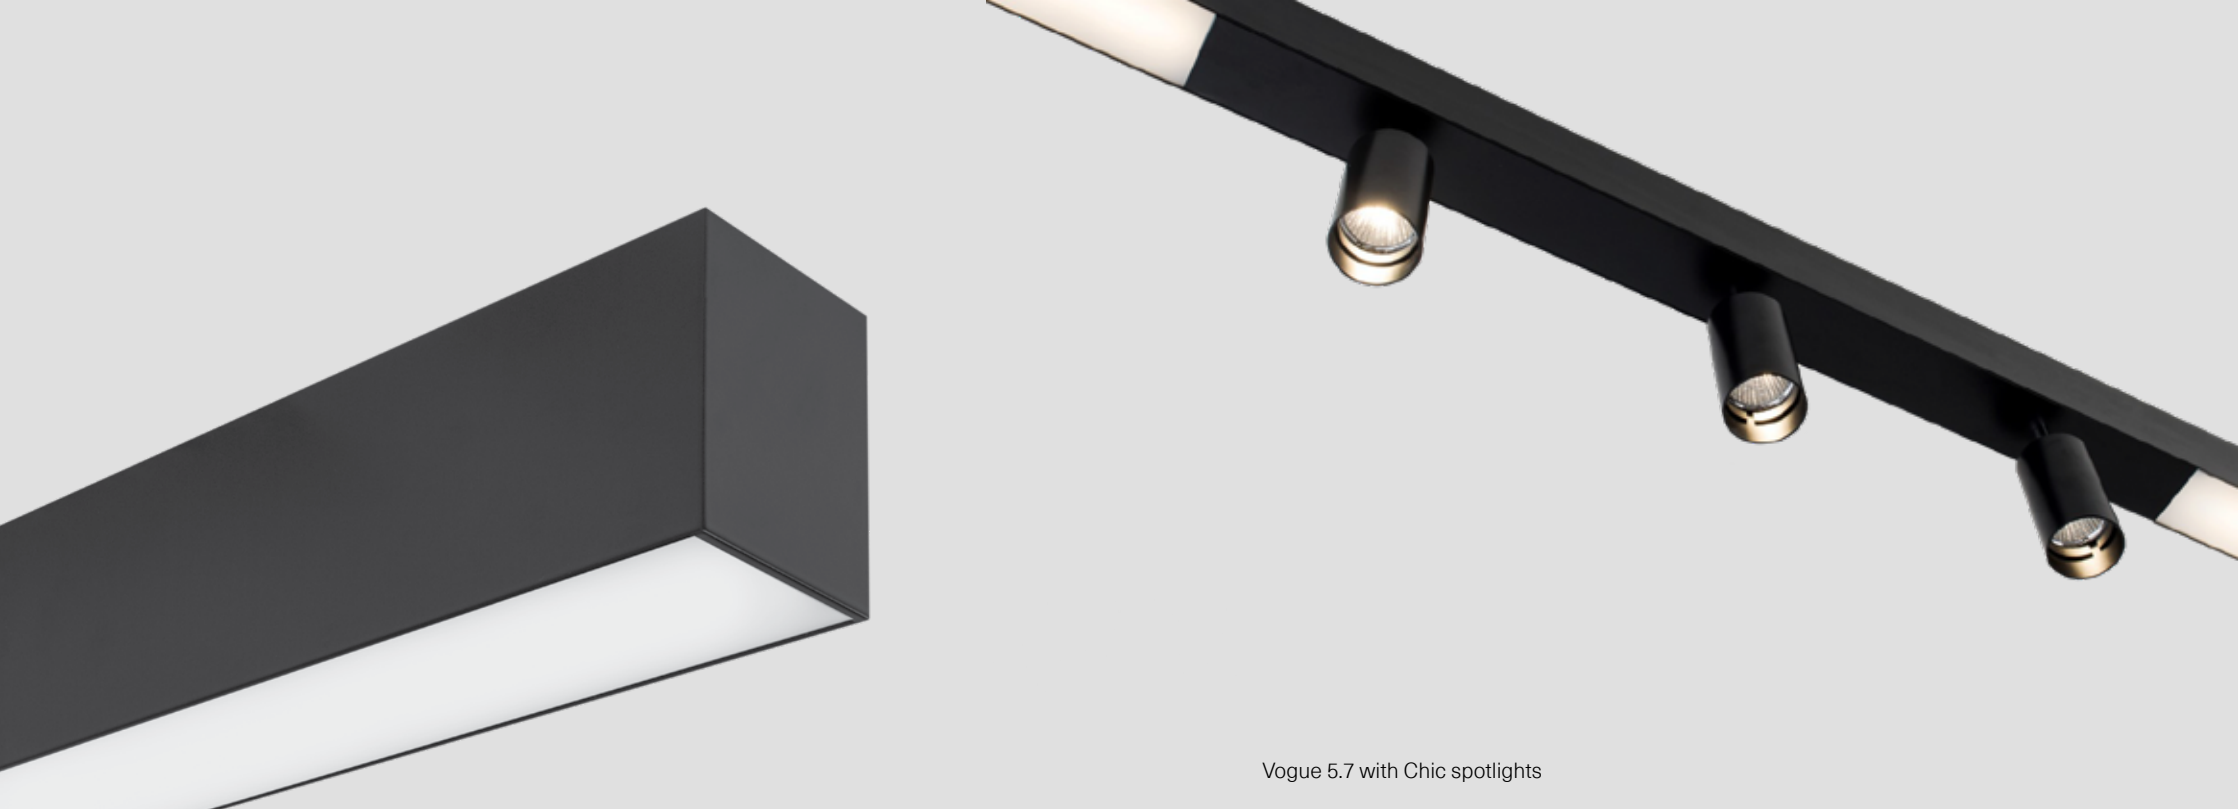

Vogue 5.7 LA

The louvre, body and LED surround are all individual components that can be coloured to suit the specific look of the project.

Vogue 5.7 with Chic spotlights

# 5.7

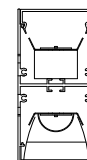

The entire **Vogue™** collection can be tailored to suit your specific lighting needs. Be it bespoke lengths, curved profiles, special colours, specific systems, special mounting accessories, integration of emergency lighting, spotlights or downlights, **Vogue™** has it all.

Bi-directional

# 5.10

Tuneable  
Fixed  
RGB  
**Up**

**Down**  
Track  
Spots  
Optics  
Tuneable

Vogue 5.10 is produced from an 'H' shaped extruded aluminium profile, making this product extremely versatile. The structure can be wired to provide either a single circuit of control, or alternatively two circuits, to facilitate individual control of the upper and lower elements.

Vogue 5.10 is the most versatile product in the **Vogue™** collection. In addition to the broad offer of LEDs, optics and body colours, Vogue 5.10 can also feature DALI 3-circuit track for the downward element, RGB or white colour tuneable LEDs and the option of a raised upper opal optic for broad lateral light distribution.

# Warm-Cool

## 5700K

## 4000K

## 3500K

## 3000K

## RGB

Vogue 5.7, 5.10 and 8.8 can feature white light that changes colour from 3000K warm white to 5700K cool white. This is perfect for both commercial and retail applications, for human-centric or seasonal fashion lighting.

Alternatively Vogue 5.10 can be supplied with RGB coloured uplight for greater design possibilities.
